ABOUT ME

I am a Video Editor & Motion Graphics Designer specialized in Explainer and Documentary videos.

With strong foundational knowledge of storytelling techniques and a first principles approach towards video creation, combined with deliberate practice over the years, allows me to visualize an idea and present it in a clear, concise, and visually appealing format.

My BBA degree gives me a unique edge in understanding and simplifying the complex business and economics video into a crystal clear visual format, which engages, educates, and informs the audience.

Apart from this, I am deeply passionate about collage style, character animation, character rigging, and mix-media art.
